Creating a
Brighter Tomorrow
for today's students

Over a Decade of Transforming Education

Founded in 2007, Next Education is India's only end-to-end education solutions provider for the K-12 sector. We have reached out to more than 12,000,000 students from various socio-cultural backgrounds across more than 12,000 schools in India. Our solutions have touched the lives of 10% of India's private-school-going children.

What Sets Us Apart

Since our inception, we have successfully achieved several milestones. We dedicate our success to our valued customers and their constant support and patronage.

Our aim has always been simple. Having a customer-centric approach, we invest heavily in R&D to make innovative solutions to cater to their needs.

Students are at the centre of all our solutions and we hope to make education accessible to every child.

However, we don't just stop at devising innovative solutions; we ensure proper implementation too. We focus on building long-term relationships with our partner schools to meet our goals. In fact, we have been lauded time and again by our partner schools for our services and support.

“

If we teach today's students as we taught yesterday's, we rob them of tomorrow

- Johwey (1859-1952).
American philosopher and educational reformer.

Education for us is not just business, but a cause.

Vision

To provide optimal solutions for all K-12 stakeholders

Mission

To be the top education solutions provider in India by 2020

Values

- We build optimal solutions. The money customers save gets re-invested in other aspects of the child's development.
- We focus on improving learning outcomes. Solutions must be designed to work in local communities with this objective in mind.
- We are austere. We guard and conserve the company's resources with the same vigilance as we would guard and conserve our own.
- We are here for the long run. We believe in partnership with our employees, customers, vendors, governing bodies and other stakeholders to strengthen the ecosystem over time.

Next Management

Beas Dev Ralhan

Co-founder and Chief Executive Officer

As the CEO of Next Education, Ralhan brings energy, inspiration and direction to the company's vision. Under his leadership, Next Education has transformed from a fast-paced education technology company to one of the most respected educational solutions provider in India. Ralhan graduated from IIT Bombay and did an MBA from London Business School.

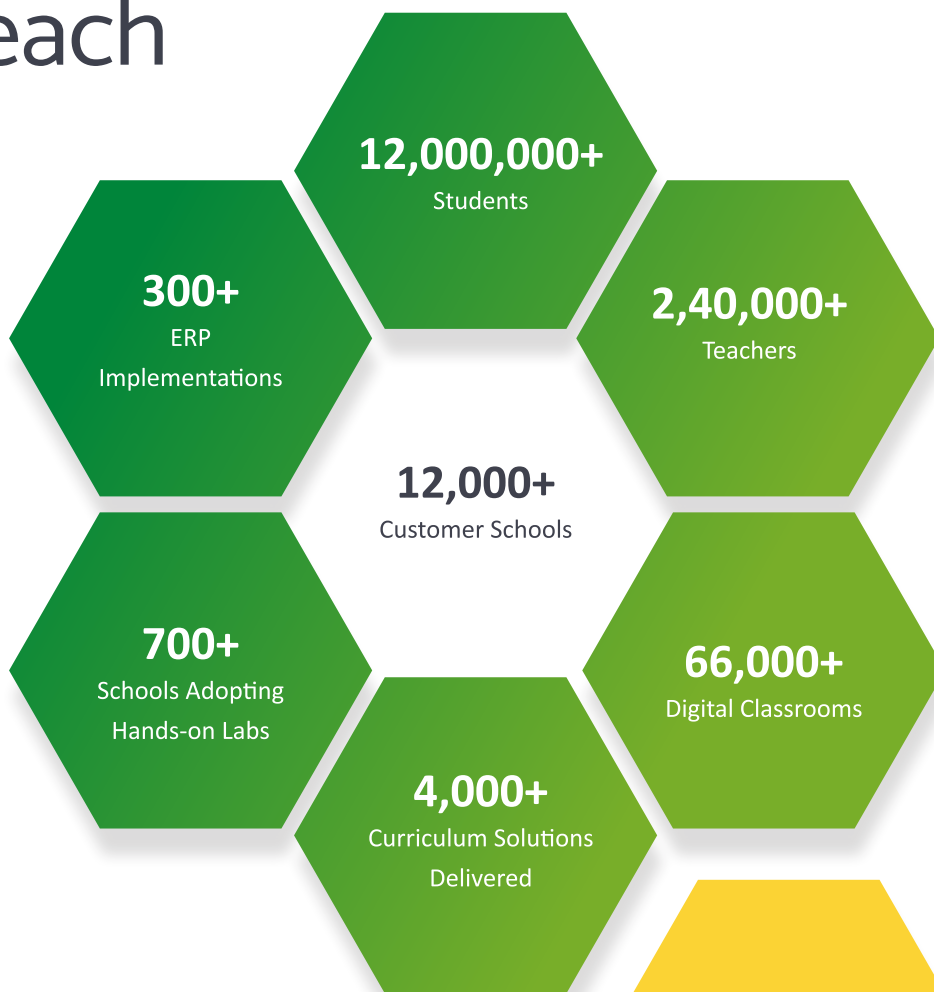

Raveendranath Kamath

Co-founder and Chief Financial Officer

As the CFO, Kamath ensures the company stays on its path with calculated risks, adequate cashflow and steady profit, while chasing hardcore targets. Kamath has a B.Tech degree in Instrumentation Engineering from IIT Kharagpur.

Do you have **The Seed Idea** to start a school?

We will germinate the seed,
nourish it and ensure it blossoms

Next. School™

Our Philosophy

We believe that the school environment ought to be conducive for all-round development of students. Imparting just the subject matter knowledge through a traditional teaching-learning approach is not enough to make a new generation learner future-ready. Innovative pedagogies and cutting-edge technological tools have to be employed to make them adept at handling the challenges of the future professional life. It is essential that they develop 21st century skills like critical-thinking, creativity, collaboration and problem-solving to excel in life.

Academics alone cannot help develop these skills nor can they ensure all-round development of

students. Thus we believe in providing students with an entire school ecosystem that will support their all-round growth curve. Facilities like a well-stocked library, extracurricular activities like sports, inter-school events, extempore, opportunities for peer interaction among others contribute to the making of a 21st century learner.

To put it in simple words, we believe in making schools of global standards where learners can be nurtured to be future innovators. We adopt a collaborative spirit and approach to attain our goal. Thus, in no way does the school management lose its autonomy or independence in the whole process.

Our Approach

NextSchool is a complete academic and administrative partnership programme for new schools aspiring for global standards. We aim to develop schools that will provide students with an environment to realise their true potential.

Academic excellence

What sets apart NextSchool's academic support is the world-class integrated curriculum. The integrated curriculum ensures that the content in all teaching-learning components are interconnected with one another. For instance, teachers can start with a digital learning tool and move on to explain the concept further with the help of a hands-on learning solution. Our panel of subject matter experts and tech enthusiasts work round the clock to devise a curriculum that is best suited for 21st century learners.

Not a franchise but a solution

NextSchool aims to help the school management run and manage a school in the most efficient and effective way. Thus, we have not adopted a franchise model; the schools retain their brand name and in no way are they tied to enter into a liaison with NextSchool if they decide to open and operate new schools in future. We are here to serve only, we are not looking for glory.

World-class academic infrastructure

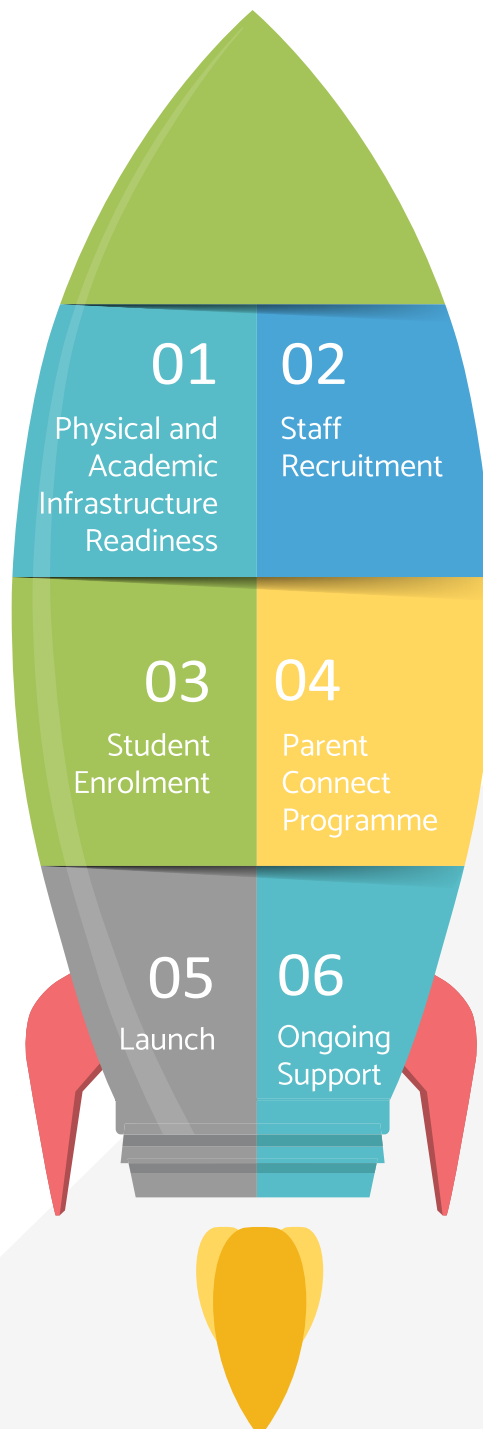

The best hardware and latest software goes into the making of our solutions as we realise that innovative technology improves teachers' productivity and students' performance. However, we just don't implement a superior quality technological and academic infrastructure, but ensure a glitch-free run too, thereby facilitating uninterrupted learning.

Management support

Having been in the education sector for over a decade, we have the expertise required to assist the management with valuable insights and advice to establish and manage a school. Right from site selection to constructing buildings as per the CBSE Board guidelines, from training teachers to helping the school management organise extra curricular activities, we ensure a healthy school ecosystem where quality learning can take place.

NextSchool hand-holds new and aspiring schools

From laying the first brick to launch and beyond

Physical and Academic Infrastructural Readiness

See your dreams take shape

This stage involves guiding the school with site selection, building school premises, playgrounds and laboratories, setting up digital classrooms and putting other academic infrastructure in place.

Staff Recruitment

Get the backbone right

Educators are invaluable resources in any academic institute. Using our experience and expertise, we help the school to hire the right set of academicians, teachers and facilitators for 21st century kids.

Student Enrolment

Make the building a school

A building only becomes a place of learning and development when students join the structure. With our promotion strategies, we help you secure maximum student enrolments.

Parent Connect Programme

Empower the guardian

Parents are often the neglected stakeholder in the K-12 sector, but not for NextSchool. We encourage parental involvement in all school programmes, so that they can make the informed decision of admitting their ward in your school.

Launch

Cut the ribbon

With everything needed for the launch in place by this stage, we ensure that the school is ready to open its doors to the students and guarantee quality learning experience for them.

Ongoing Support

We are here for you

The partnership strengthens after the launch. We customise solutions and services as per the unique requirements of the school.

Our Services

Whether you are interested in setting up a new school or upgrading an existing one, NextSchool is a comprehensive solution to keep up with the changing scenario of education in India. As a provider of complete school academic and management advisory services, we cater to all stakeholders of a school-trustee, owner, principal, teachers, students and parents. With our expertise, experience and support structure we can help you with school academic infrastructure, integrated curriculum, operating procedures, assistance in student admissions, teacher trainings, marketing and other support initiatives, which will help you establish and sustain your school.

Our team consists of individuals with varied expertise in the education field, dedicated to achieving better

results for your school. NextSchool is at the forefront of driving innovations and strategic initiatives and is recalibrating the benchmark in running a school. Our continuous efforts at putting students at the heart of what we do is the reason why we are the first and foremost providers of a 360° academic and management support for schools.

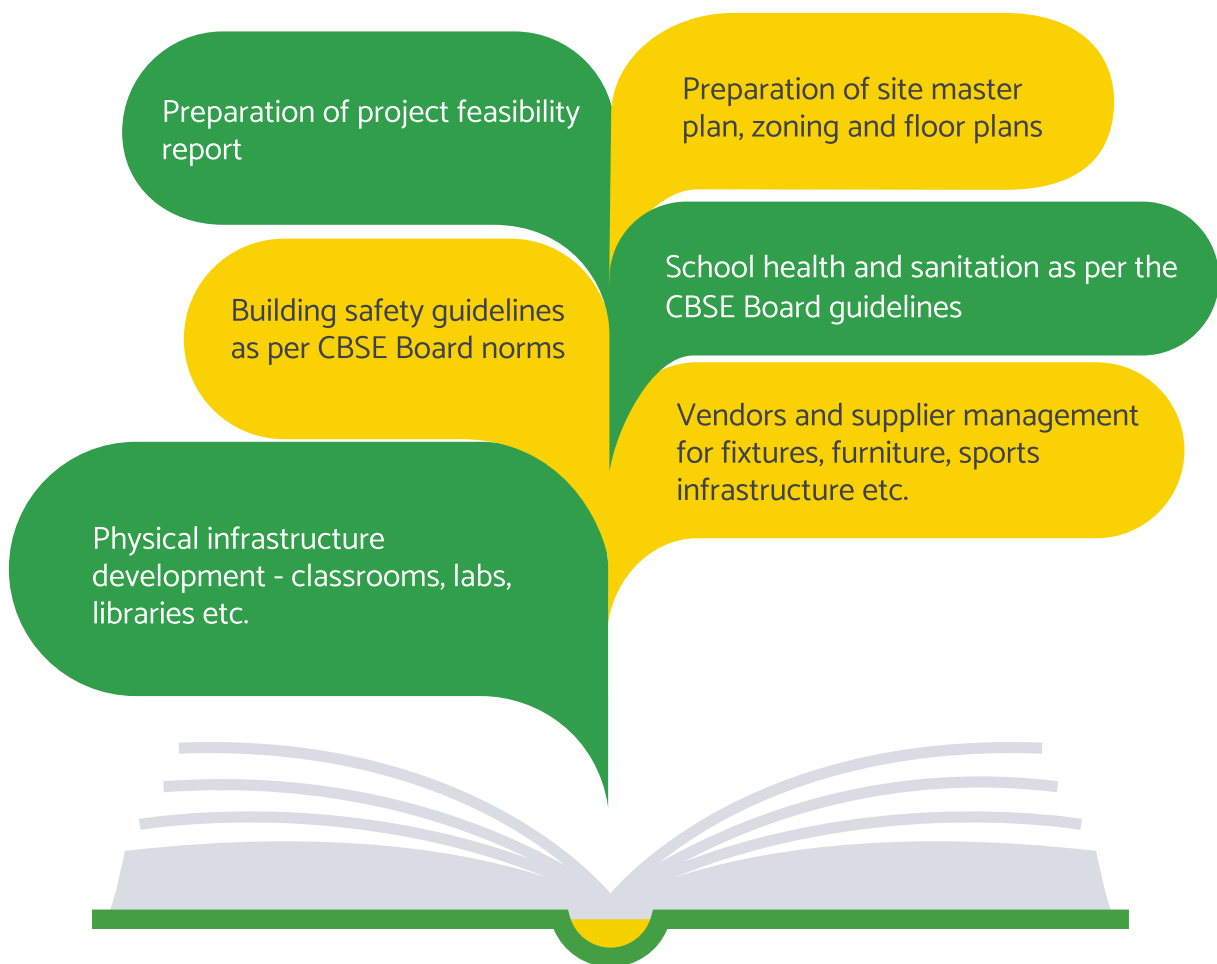

Since NextSchool is not based on a franchise model, you can build your own brand with it. This works best for those with a long-term vision of empowering the society with world-class education.

School Infrastructure and Project Guidance Service

In the initial stage, we help you prepare a master plan, facilitate construction and design spaces as per the guidelines issued by the CBSE.

School Management Support

In this stage, we help you formulate your school's vision, mission and philosophy, and establish organisational structure and strategic planning.

Creating the school's logo and brochure

01

Facilitating media communication strategies

Formulating the school's vision and mission

02

03

Formulating the school's organisational chart with roles and responsibilities of each function

Affiliation guidance according to CBSE Board

04

05

Designing Standard Operating Procedures for smooth day-to-day school operations

Providing budget guidance

06

07

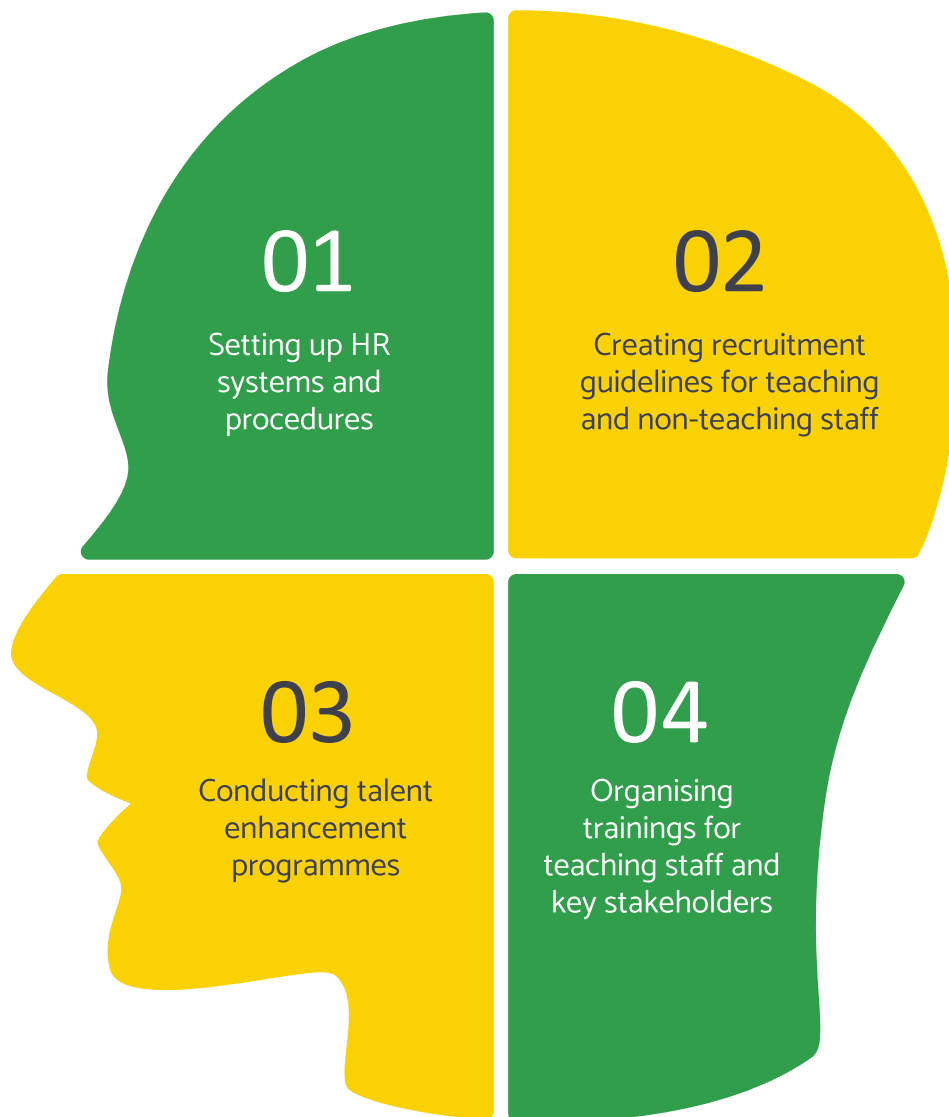

Providing guidance in transport, canteen, housekeeping and security procedures

08

Staffing and Training

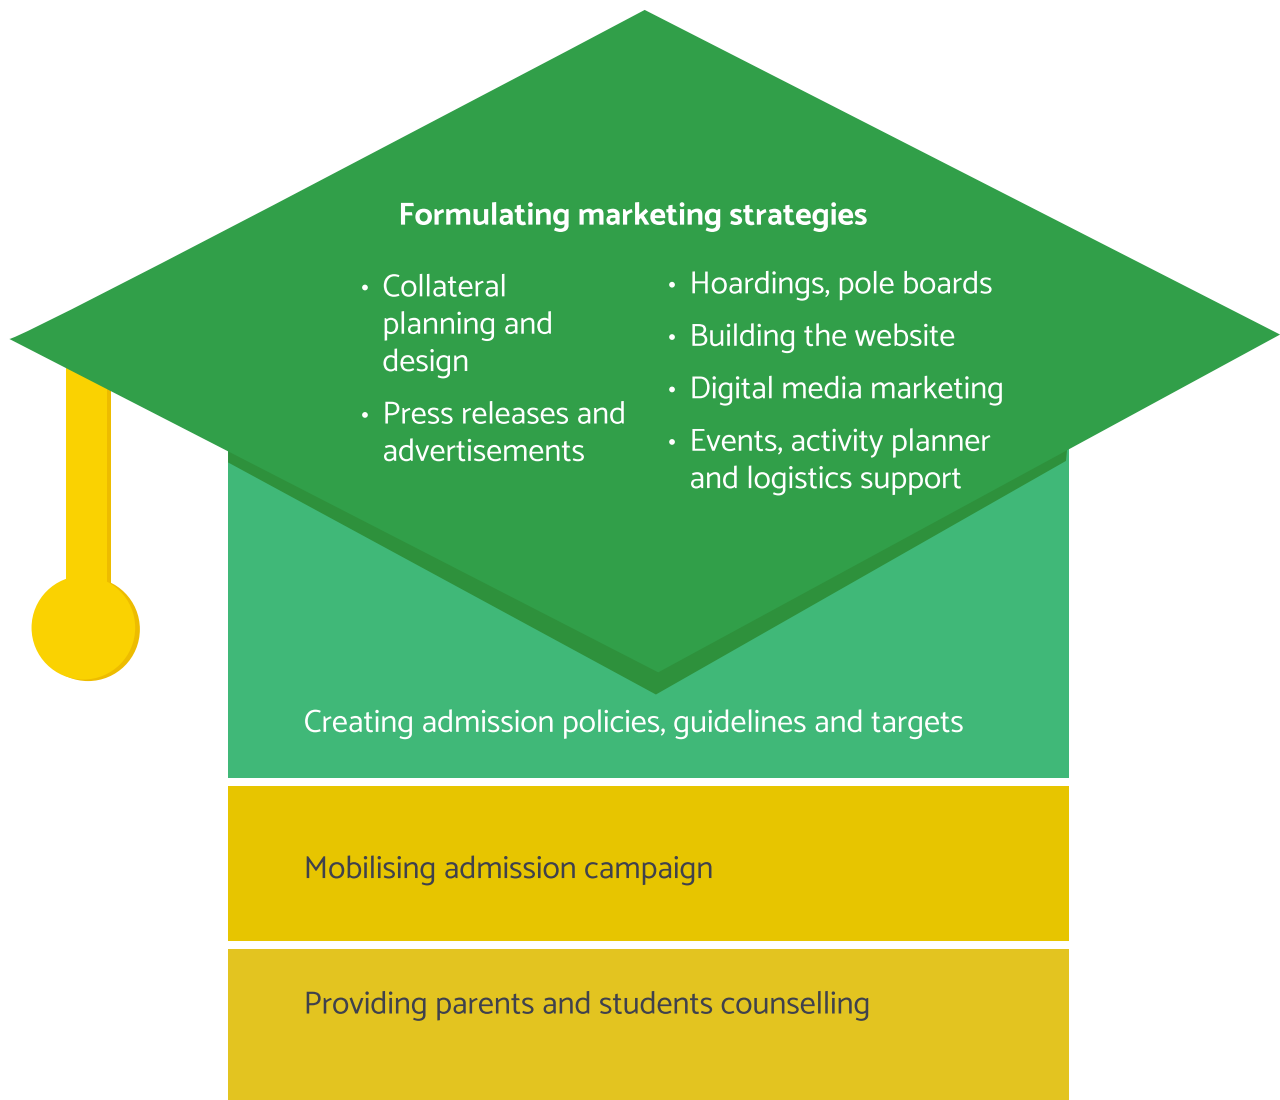

As a continuous effort to achieve effective learning outcomes, we undertake hiring and skill-development trainings for teaching and non-teaching staff.

Student Enrolment

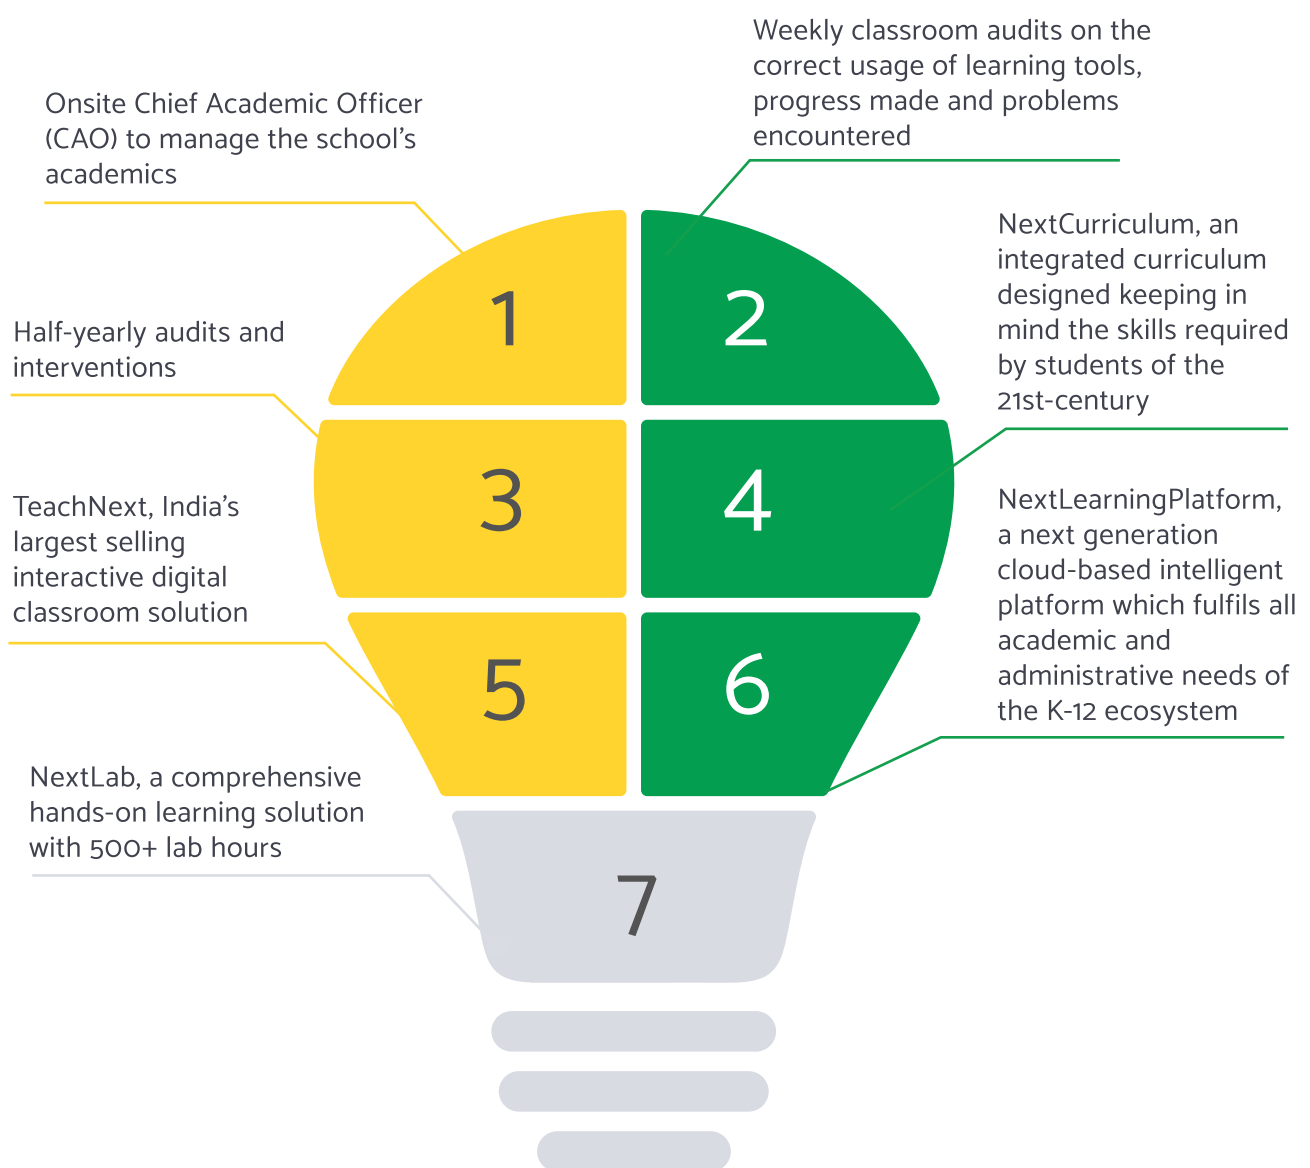

We understand that students form the crux of a schooling structure. Hence, we provide a comprehensive marketing strategy and a detailed admission plan.

Academic Solutions and Operations Support

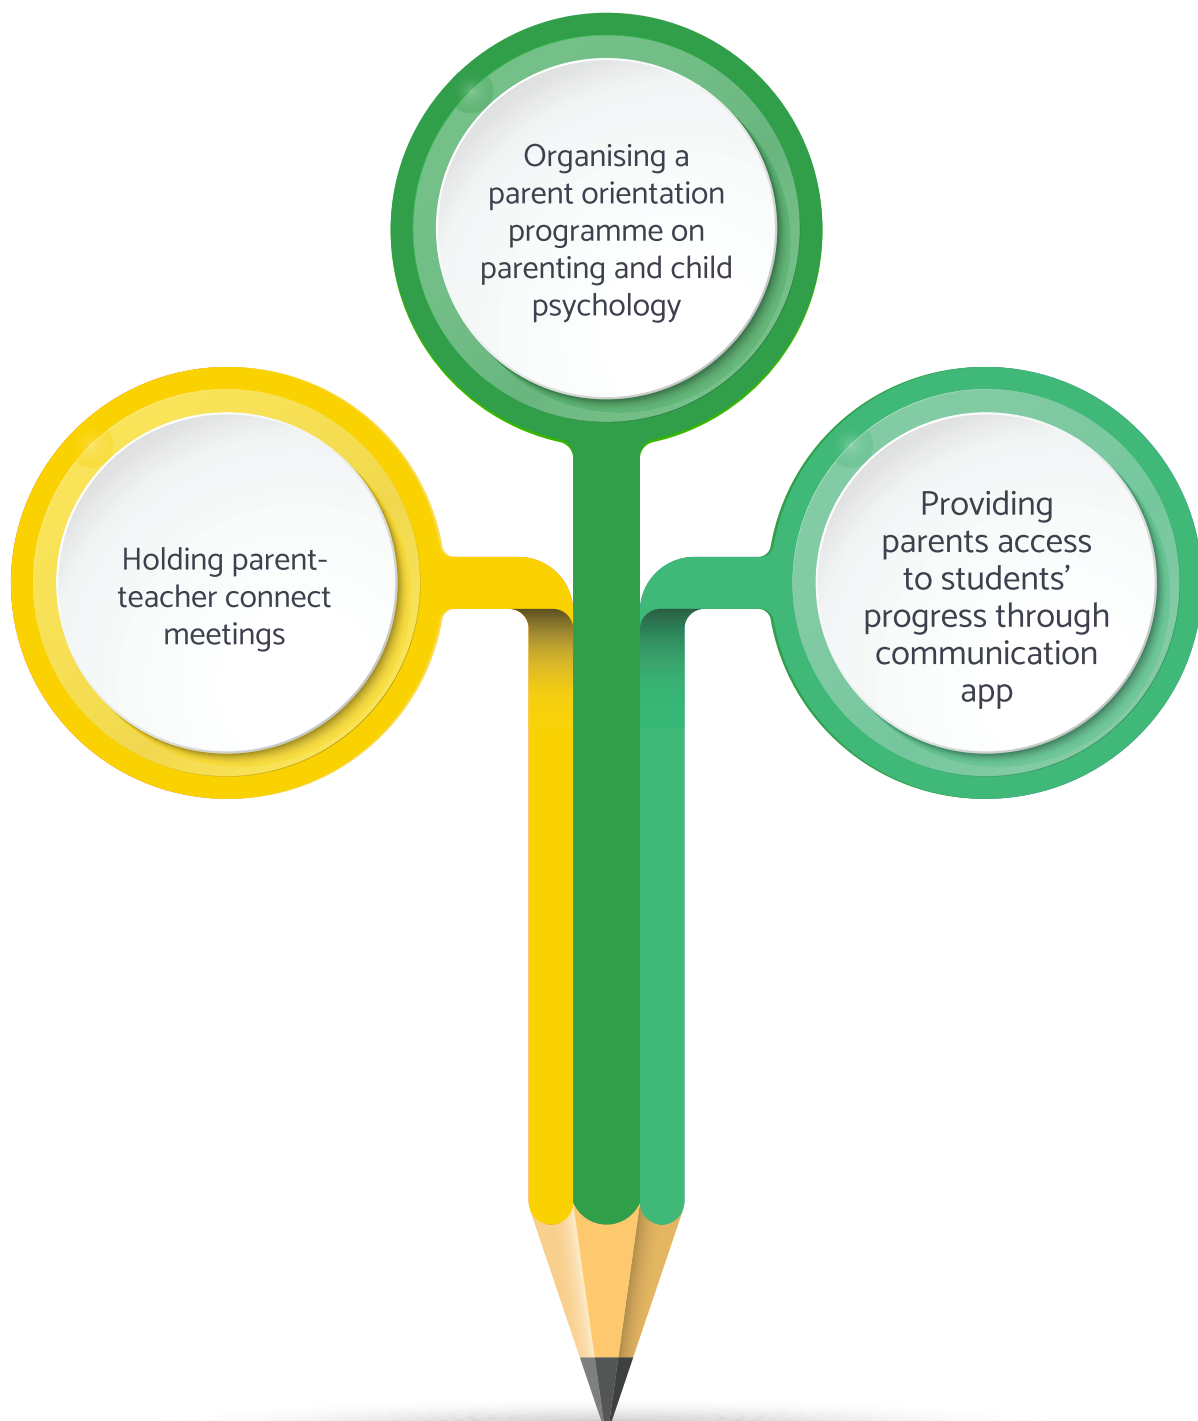

We dedicate time and resources at the academic planning stage, thereby providing world-class products and guidance to implement the 21st-century learning programmes.

Parent Orientation and Feedback Programme

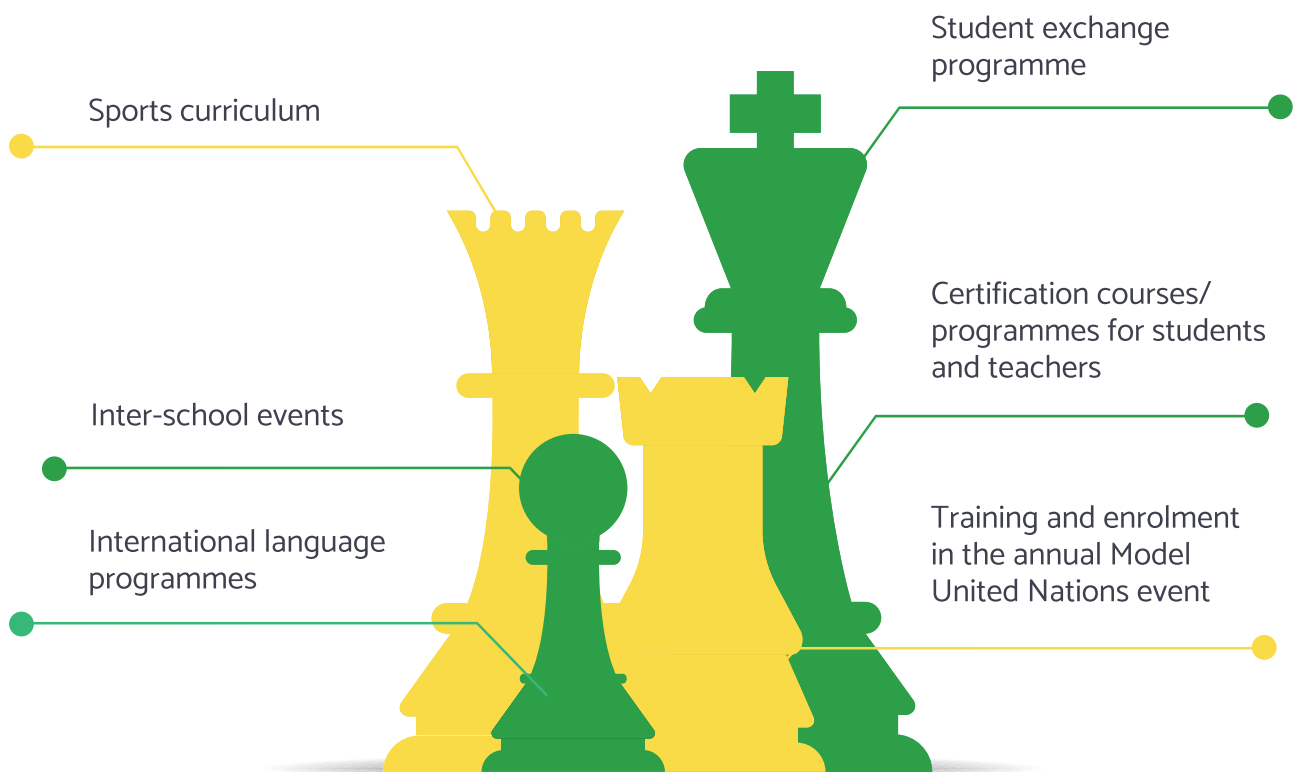

As a part of our commitment to help your brand grow, we engage and influence parents and students and help them understand education programmes and student progress.

Strategic Alliances

Our focus is not limited to the academic growth of students. This is demonstrated by the number of events we help organize beyond academics.

Partner with us

✓ **Build your own legacy**

As partners, you are our priority. We help you **build your own legacy**.

✓ **Not a franchise**

We are **not a franchise**, but a royalty-free academic solutions provider.

✓ **Integrated curriculum**

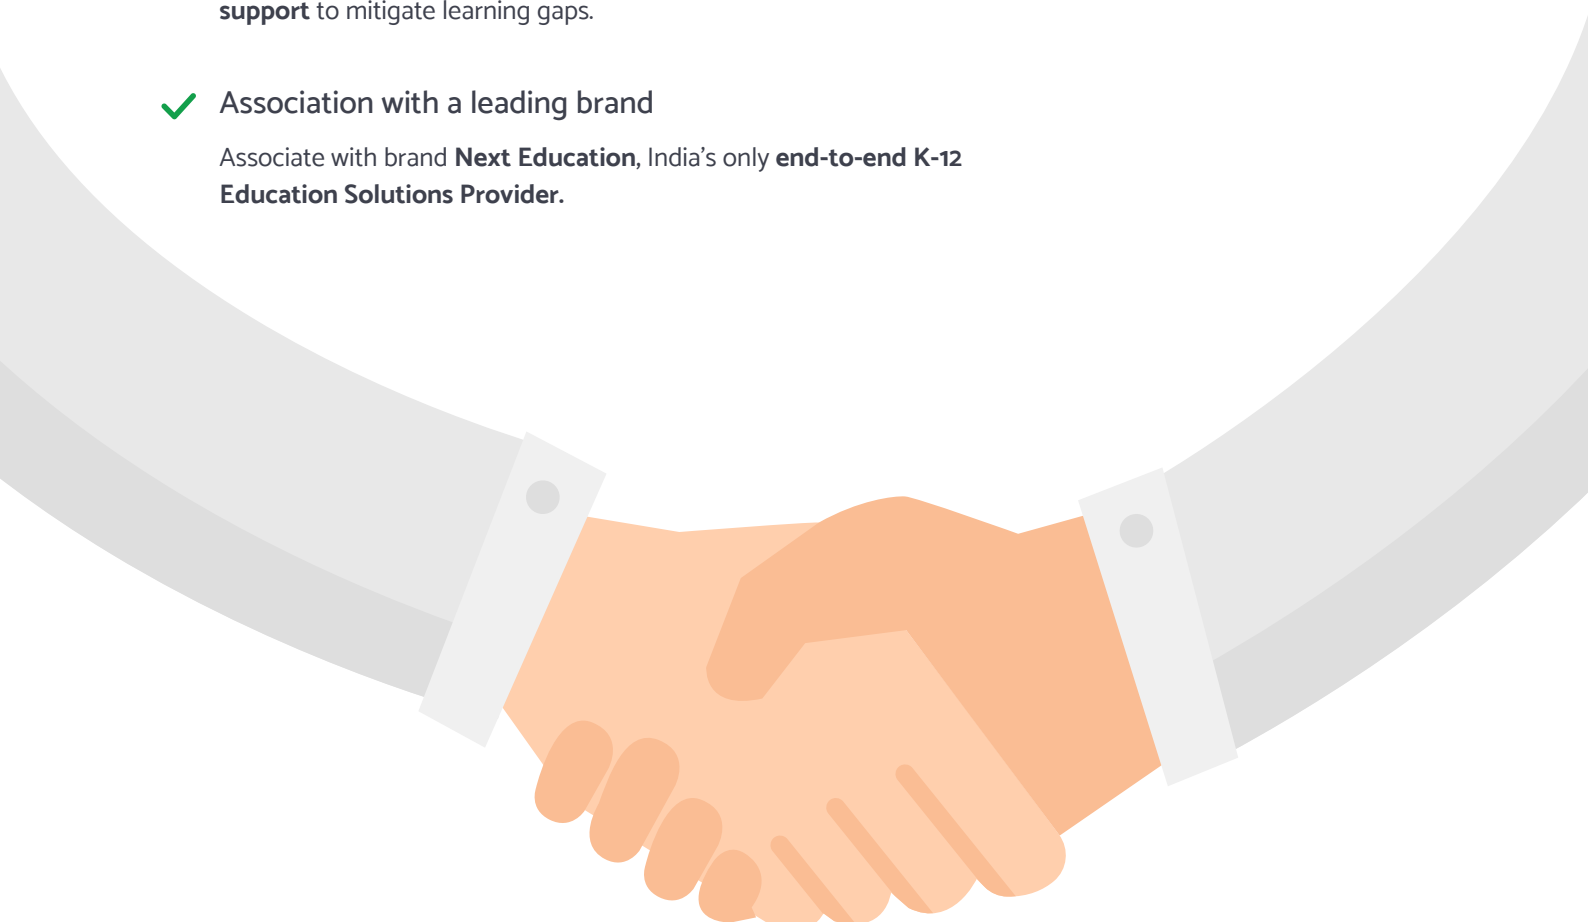

Our partners **need not approach individual suppliers for various learning components**. Our curriculum cohesively integrates all teaching-learning components required by the 21st-century learner.

✓ **Ongoing support and service**

We conduct **weekly classroom audits** and provide **360° after-sales support** to mitigate learning gaps.

✓ **Association with a leading brand**

Associate with brand **Next Education**, India's only **end-to-end K-12 Education Solutions Provider**.
